02 Wrap Tools

3M™ Knifeless Finish Line Tape

Knifeless tape technology is designed to cut graphic film or other materials without a knife, eliminating the risk of nicks and cuts from a blade on the surface of the vehicle or substrate. Knifeless tape consists of a carrier tape for application and a visible, high strength filament (line) to cut film. The carrier tape and filament are flexible and turn smoothly along contours and edges of the surface it is applied to. Graphic film is placed over the tape and cutting is achieved by pulling the filament up through the film. A clean cut is made along the entire length of the applied tape. The carrier tape removes cleanly, leaving no adhesive residue. 3.5mm x 50m.

Code	Description	Price Each
AC-KFL	3M™ Knifeless Finish Line Tape (50m)	£27.50

3M™ Knifeless Design Line Tape

With greater flexibility than Finish Line, the Design Line tape allows unique striping, accents and designs with sharp, clean edges. Flexible tape and filament is engineered to easily create highly contoured designs and leave a sharp, clean edge. Knifeless tape technology is designed to cut graphic film or other materials without a knife, eliminating the risk of nicks and cuts from a blade on the surface of the vehicle or substrate. 3.5mm x 50m.

Code	Description	Price Each
AC-KDT	3M™ Knifeless Design Line Tape (50m)	£27.50

WrapCut™ Filament Tape

WrapCut™ is a filament wire tape for allowing precise profile cutting of vinyl wrap graphics without using knives on vehicles. The design prevents risk of damage to vehicle paintwork while trimming, as the filament wire is released safely up and away from the vehicle. The result is a smooth clean cut line, whether straight or profiled. Single sided, low tack. 3mm x 60m.

Code	Description	Price Each
AC-WCS	WrapCut™ Filament Tape (60m)	£9.50

WrapCut™ Pro Filament Tape

WrapCut™ Pro features a tackier, slightly wider and stiffer tape enabling easy, long straight lines than the standard WrapCut™ product. The significant increase in adhesive strength permits positive attachment to difficult surfaces and creates instant tack to the surface but lifts cleanly and easily for re-positioning. Single sided medium tack. 4mm x 45.7m.

Code	Description	Price
AC-WCP	WrapCut™ Pro Filament Tape (45.7m)	£9.50

Vehicle Gripper Wrap Magnets

These vehicle gripper magnets are a must have for fitting vinyl wraps. Make the task easy by temporarily holding surplus area of film in place, and free up your hands while you work on the area being wrapped. The magnet features a removable handle which allows the graphic to be fully folded back, and a rounded handle top which prevents indentations to the vinyl when lightly folded over. Supplied in packs of 2 and in a pack of 10.

OLFA DC-5 – Advanced Handy Blade Disposal Case

The OLFA® DC-5 with belt clip is designed to make life easier, faster and safer for anyone who uses a Snap-Off cutter. To use the snap case, pull down the front flap, insert your snap-off cutter into the slot (with the blunt segment extended) and pull towards you to snap it off and let it fall safely inside. Once the case is full you can pull open the top flap and discard used blades safely, making the case ready to use again.
